

FIBER OPTIC COMPONENT
VERIFICATION &
QUALIFICATION SERVICES

WE OFFER FIBER OPTIC CONNECTOR DESIGN VERIFICATION AND QUALIFICATION SERVICES

If you are building quality, reliability and durability into your network then you need to be sure that the components you use are fully tested and comply with internationally recognized standards.

Resolute Technologies is a test lab that specializes in fiber assembly testing.

As data rates rise, the quality of connections becomes ever more important. Don't rely on vendor's specification, get it checked independently and be sure you are getting the quality and reliability that you expect.

Why risk the operation of your network. Buy the best and test for quality.

www.resolutetec.com

Resolute Technologies is an accredited ISO 17025:2017 laboratory specializing in fiber optic connector testing.

Our Services include:

ENVIRONMENTAL TESTING

- Thermal Aging
- Thermal Cycling
- Humidity Aging
- Accelerated Life

MECHANICAL TESTING

- Vibration
- Flex
- Twist
- Cable Retention
- Impact

MATERIAL TESTING

- Flammability
- Fungus
- Glass Transition Temp

RELIABILITY TESTING

- Salt Spray
- MFG
- Dust
